

RACKMOUNT SERVER

P/N: IP-R1304BTL

The Nexlink® IP-R1304BTL rackmount server represent the latest generation of 1U rack-optimized system solutions from Intel. The IP-R1304BTL systems support the Intel® Xeon® processor E3 1200 series and will support the next generation processor once available ensuring future upgradeability.

SYSTEM

Processor	Intel® Xeon® processor E3 1200 series
Processor Sockets	1
Motherboard	Intel S1200BT
Memory	Support for up to 32GB DDR3; 4 DDR3 DIMM (unbuffered)
Integrated LAN	Embedded Intel Dual Gigabit Controller
Integrated Graphics	128MB DDR3 Memory, 8MB usable by graphics plus shared system memory
Server Management Support	Intel Deployment Assistance Intel System Management Software

TOWER

Form Factor	1U Rackmount
Power Supply	R1304BTLSFANNA: 250 watt non-redundant PSU R1304BTLSHBNNNA: 350 watt non-redundant PSU
Drive Bays	R1304BTLSFANNA: Up to 4 x fixed 3.5" SATA R1304BTLSHBNNNA: Up to 4 x hot-swap 3.5" SATA/SAS
Front Ports	2 x USB ports 1 x Power/Sleep switch
PCI Express Slots	1 x PCI Express® 2.0 x 8 slot (x8 mechanical) Low Profile
Dimensions (w x h x d)	17.24 x 1.75 x 21.8 inches / 438 x 45 x 553 millimeters
